## Great leaders aren't born. They are trained.

---

You will know that people may be experts at their job, but it takes a completely different set of skills to manage and lead a team successfully...

Great leaders have real hands-on operational experience plus excellent management and leadership skills. ServiceIQ offers two popular programmes designed to give your talented employees with management potential the skills they need to take on greater responsibility and contribute more to your business.

The business management programmes are two-tiered and lead to nationally recognised qualifications. They are also perfect for business succession planning.

- 1. New Zealand Certificate in Business (Introduction to Team Leadership) Level 3** is ideal for supervisors or the people you want to move into effective team leadership or supervisor roles.
- 2. New Zealand Certificate in Business (First Line Management) Level 4** is designed for your team leaders or supervisors who are ready to step up into management.

Both programmes involve a mix of theory and practise. They are completed separately and can be easily achieved by your employees on the job and at a pace that works for your business. Your ServiceIQ advisor will be able to help you decide what works best for your business and your staff.

*Good managers are vital for success, and you will know it takes a completely different set of skills to lead and manage a team.*
